Seasonal Services

Spring Start Up: System will be checked for leaks. Sprinkler heads will be adjusted if needed and checked for clogging and wear. Clock settings will be checked and noted. If your clock requires a battery, it will be checked for a positive charge. When applicable, pumps & filtering devices will be checked.

Mid-Season Checkup: Coverage patterns will be assessed for even distribution of water. Sprinkler heads will be adjusted after being checked for clogging and wear. Only outdoor clocks will be adjusted, if needed.

Winterization: System will be blown out with compressed air to prevent costly repairs from damage that can arise from frozen water within your system's piping. Any existing or potential issues that should be repaired during the next season's *Spring Start Up* will be documented.

Repair Services during a DP visit have a '*special service-call code*' on your invoice and reduce your repair costs. This is just another added value to signing on for the Discounted Package, Full Service.

Service Calls will be calculated according to our company's man per hour rate of \$72.⁰⁰
The minimum charge for a service call is \$75.⁰⁰

Check the Annual Maintenance Service(s) you would like & return the WHITE copy:

Discounted Full Service Package (DP): \$ _____ (tax included) This package includes the Spring Start Up, Mid-Season Checkup, and Winterization.
